

Welcome!

Thank you for your interest in becoming a member of Great Lakes Energy Cooperative (GLE).

At GLE you're more than a customer - you're a member. We're different than other electric utilities. We're a cooperative and that means we're owned by our members. It also means GLE's rates and fees are cost-based and our margins (profits) are returned to members as a capital credit refund on your bill.

Enclosed is information you requested to start your new service with GLE. Please read over the documents carefully and contact us with any questions or concerns at 888-GT-LAKES (888-485-2537) or glenergy@glenergy.com.

We look forward to serving you. For more information about the products and services we offer please visit gtlakes.com.

We're looking out for you,

Great Lakes Energy Cooperative

GLE New Service Checklist

Please use this checklist to guide you through the new service process. We are happy to help answer questions along the way.

1. Submit Required Forms

Complete and return the forms listed here within 90 days to avoid cancellation of your order.

- Application for New Service/Change in Service
- Electric Service Information
- Load Schedule Sheet
- Electric Service Site Plan
- Member Responsibilities
- Products and Services Request
- Easement – Notarized and Recorded
- Copy of recorded property deed with complete legal description
- Copy of property survey (if possible)

2. Mark Site Plan Form & Property

- Using the Electric Service Site Plan form, mark the corners of existing and proposed facilities listed on the form.
- Clearly mark or expose the facilities at the job site itself using stakes.
- Notify your Member Service Coordinator when staking is complete.
- This must be done before a Great Lakes Energy site planner visits your site.**

3. GLE Site Visit

- A GLE site planner visits your site and marks the route of the new power line.
- The site planner will determine if there is additional need for easements or special permits. Special permits such as road crossing or state permits will be obtained by Great Lakes Energy.
- After site visit, the cost to extend electric service to your site is determined. The cost may include right-of-way tree clearing work, as determined by the site planner. You will receive an invoice, please pay promptly to avoid delays

4. Meter Base Installation

- Meter bases are provided by GLE at no cost. Pick up a meter base and install it on the dwelling or a service pole. See enclosed directory of pick-up locations or pick up at a GLE office.
- Arrange for the appropriate governing electrical inspector to approve meter base installation. A directory of electrical inspectors is enclosed.
- Electrical inspector will notify GLE when inspection is approved.

How long will it take?

Time varies depending on length of time to complete the steps above. Delays may occur due to weather, tree-clearing and other circumstances. Once all steps are completed, most installations occur within 15-20 business days.

Please contact me at 888-485-2537 if you have any questions or concerns.

Thank you,

Your Member Service Coordinator, Extension _____

Application for New Service/Change in Service

For office use only

Acct #:

Please complete and return. If you have any questions, contact your Member Service Coordinator between 7:30am and 4:00pm Monday through Friday, excluding holidays.

Applicant legal name (Last, First, M.I.)	Social Security number - -	Driver's License Number	State
Joint Applicant legal name (Last, First, M.I.)	Social Security number - -	Driver's License Number	State
Applicant Date of Birth	Joint Applicant Date of Birth	Primary Phone	
Current Mailing Address	City	State	Zip Cell Phone

If applicable, Business owner's identification information: ↓

Business's legal name		
Owner's complete legal name (Last, First, M.I.)	Business Tax ID. Number	Owner's Social Security Number - -

Have you ever had service with GLE before? Yes No

A non-refundable application fee of **\$75.00** is required. All other charges will be invoiced separately. Please include this payment when returning the completed application.

A previous history with Great Lakes Energy or utility credit check will be run to determine if a security deposit will be required.

This personal information is required by federal laws and is kept confidential by Great Lakes Energy.

Please complete and return.

Updated 4-2017.

Electric Service Information

Please complete and return with your application.

Please print clearly in the boxes below.

Applicant legal name (Last, First, M.I.)	Address where service is to be provided	City
Primary Phone	Cell Phone	E-mail address
Joint Applicant name	Joint Applicant daytime phone	Joint Applicant cell phone
Subdivision where service is to be provided (if any)	Lot Number(s) of Subdivision	Secondary phone
County where service is to be provided	Township	Section #
Nearest Neighbor name or Nearest Pole #	Neighbor's Address	Distance from nearest pole or UG cabinet
Builder's name	Builders business phone	Builders cell phone
Electrician's name	Electrician's business phone	Electrician's cell phone
		Service – Circle One Temporary or Permanent

Intended use for new electric service (Check one)

- Primary Residence
 Non-Primary or Seasonal Residence
 Commercial

Member Responsibilities

For office use only

Acct #:

The undersigned hereby applies for membership with Great Lakes Energy Cooperative.

I understand and agree:

- A. I am responsible for marking all property lines and locations of underground facilities on the property (see enclosed site plan). **Great Lakes Energy is not liable for damages to your facilities that are not marked or are marked incorrectly.**
- B. For underground service, I am responsible for ensuring there is a 15-foot wide path along the cable route free of dirt piles, debris, construction material, etc. The rough grade must be within 6 inches of the finished grade along the cable route. I am responsible for final site restoration.
- C. I understand I must obtain electric inspection approval before my electric service can be connected.
- D. In addition to the fees listed, a line extension charge may be required as a Contribution in Aid of Construction as stated in the Cooperative rules and regulations governing the sales of electric service, approved by the GLE Board of Directors and on file with the Michigan Public Service Commission. The amount of applicable line extension charges will be determined after a field inspection and billed by a separate invoice. All fees must be paid before line construction work can begin.
- E. A non-refundable Contribution in Aid of Construction (winter charges) in the amount of 30 percent of total construction cost shall be required in addition to all other underground charges when construction work is performed between December 1 and March 31.
- F. All fees and charges must be paid and permits obtained within 90 days of this application. After 90 days, fees are subject to change and/or the order may be canceled.
- G. The undersigned understands that he/she shall have all the rights and privileges granted to members under the Articles of Incorporation and By-Laws of the Cooperative or any amendments thereto and agrees to comply with and be bound by such Articles of Incorporation and By-Laws and all tariffs, rules and regulations as may from time to time be adopted by the Board of Directors of the Cooperative.

Product and Service Request Form

Your Name	Phone Number - -	Account Number
Email Address	Cell Phone Number - -	

Please check all that apply to receive more information.

The People Fund

- Yes! I want to enroll my account(s) in the People Fund to help charitable organizations in my community by having my bill rounded to the nearest dollar each month.

Energy Optimization – energy efficiency programs and rebates to save money. Cash incentives for high efficiency heating and cooling equipment, water heaters, appliances, lighting, TVs and more. Programs subject to change. Incentives range from \$5 to \$500 for residential and even more for businesses. Find more information, visit michigan-energy.org.

Efficient Electric Heat - Install a qualifying high efficiency electric air-source or ground-source (geothermal) heat pump and receive a \$250-\$500 rebate and an electric rate discount of 3 cents per kWh. Additional Energy Optimization rebates, up to \$500, for qualified systems.

AutoPay - Save checks, stamps and time when your bill is automatically deducted from your checking or savings account.

Co-op Owners for Political Action – Learn more about this voluntary grassroots network to support political campaigns of candidates who support electric co-ops. No rate dollars are used

Generators – Receive information on generator installation and safety

Other: _____

**Thank you! We will contact you with more information.
More information on these programs is available at gtlakes.com**

Once your new service is complete, visit us at **gtlakes.com** to access your account online and enroll in paperless e-billing!

Meter Base Pick-Up Locations

Standard meter bases, including 200 amp capacity, may be obtained at any Great Lakes Energy service center or one of the following locations. Three-phase or special meter bases may be obtained only from our service centers at prearranged times.
