

# STORM DAMAGE

Who takes care of it?

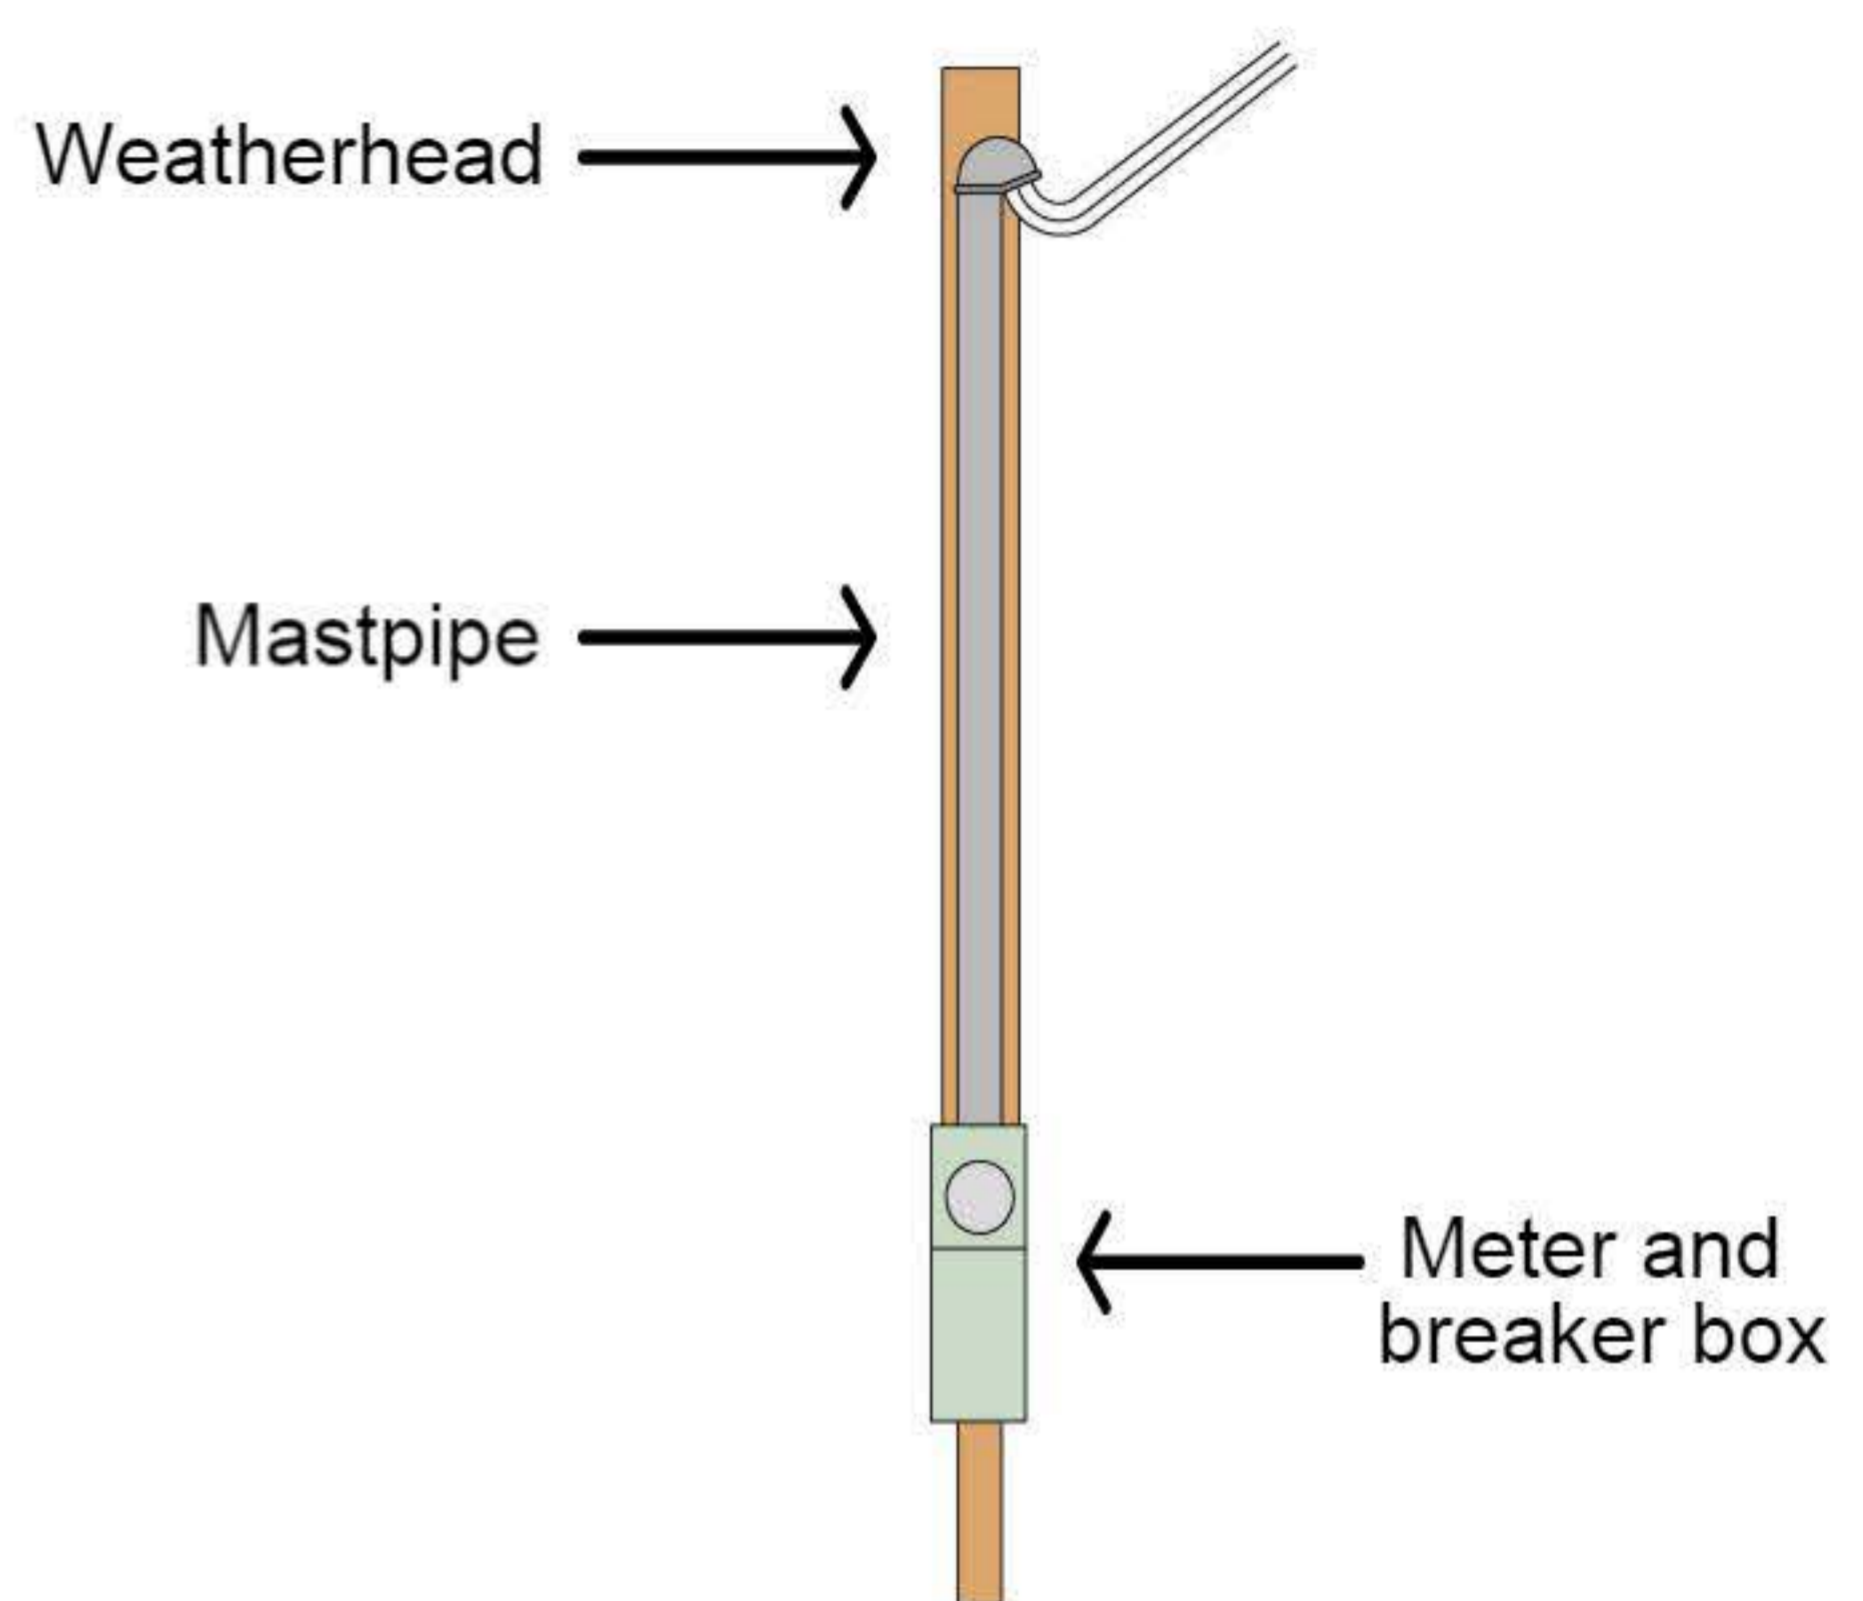

## 1. Where is your meter located?

See A or B below.

### A My meter is on my house

### B My meter is on a pole

## 2. What are you responsible for?

**A.** You are responsible for all equipment below and including the weatherhead, called the service entrance, EXCEPT for the meter. Contact a licensed electrician to make repairs.

**B.** You are responsible for all equipment below and including the weatherhead, called the service entrance, EXCEPT for the meter. You are also responsible for the pole and the breaker box. Contact a licensed electrician to make repairs.

## 3. What is GLE responsible for?

GLE is responsible for all repairs to the power lines, including the service wires that connect to the weatherhead.

GLE is also responsible for the meter and will provide a new meter base, if needed, at no charge. Contact us once your electrician has completed repairs and the electrical inspector has approved the work.
