ENERGY INSTALLATION

Important Things to Know

***Keep this page for reference.**

► Before We Start:

Please stake all facilities. These include:

- ▶ Property lines
- ▶ The four corners of the business and other proposed buildings
- ▶ Desired meter location(s)
- ▶ Underground member-owned facilities (well, septic, propane lines, sprinklers, etc.)

Things to Know About Our Work

- ▶ We may dedicate separate crews to complete installation depending on project size and complexity.
- ▶ Site readiness, supply chain delays, seasonal demands, and adverse weather may delay installation.
- ▶ We'll use large trucks and heavy equipment, so please use caution near the construction area.
- ▶ When trenching, we'll backfill dirt in the trench without leveling.
- ▶ Final restoration is your responsibility.

1. APPLYING

- ▶ A \$75 non-refundable application fee is required. Please submit a check or discuss payment options with our office.
- ▶ This step may take 4-8 weeks depending on our waiting list and seasonal demands. Jobs are typically performed on a first come, first serve basis.
- ▶ GLE will contact you with any questions or follow up.

2. DESIGN

- ▶ Failure to mark the desired location of service will result in job delays and/or additional charges.
- ▶ Stake all facilities listed above.
- ▶ Upon request, a field design technician will meet with you on-site to discuss options.
- ▶ Next, GLE will perform a site visit and design the most economical route for electric service installation, place flags marking the proposed route, and determine a cost estimate.
Major changes to this design may result in job delays and extra fees.

3. PRE-CONSTRUCTION

- ▶ GLE will contact MISS DIG to mark all underground public utilities such as electric, gas, phone, etc.
- ▶ GLE will supply easement forms, but member is responsible for gathering signatures for surrounding parcels as required for the installation.
- ▶ GLE may require some tree clearing be performed by GLE contractors for safety.
- ▶ GLE is not responsible for damages to any unmarked facilities.

4. CONSTRUCTION/INSTALLATION

- ▶ Installation typically takes up to 15 business days after step 3 is completed. Outages or weather may increase this time.
- ▶ GLE construction crews will come to the site and install facilities as designed and leave the site ready for final restoration by the member.

5. CONFIRMATION

- ▶ We will contact you after the meter has been set and energized.

ENERGY INSTALLATION Member Checklist

***Keep this page for reference.**

Place this checklist side by side with the "Important Things To Know" page to ensure you have all the information you need.

1. APPLY

- ☐ Complete application for service.
- ☐ Include load information.
- ☐ Indicate service size and overhead/underground preference.
- ☐ Draw a site map.
- ☐ Review information and sign form.
- ☐ Submit application online or to any GLE office with \$75 application fee.

2. DESIGN

- ☐ Mark your proposed meter location.
- ☐ **Please stake all facilities.** These Include:
 - ▶ Property lines
 - ▶ The four corners of the business and other proposed buildings
 - ▶ Underground member-owned facilities (well, septic, water lines, propane lines, sprinklers, etc)

▶ **After this GLE construction crews will come to the site and install the facilities as designed and leave the site ready for final restoration by the member. We will contact you after the meter has been set and energized.**

3. PRE-CONSTRUCTION

- ☐ Pay the invoice provided. Invoices are valid for 45 days.
- ☐ Sign and record required easements.
- ☐ Have meter base installed and inspected by the county electrical inspector.
- ☐ Provide a path 15 foot wide (underground) or 30 foot wide (overhead) to accommodate installation work.
- ☐ Site has been leveled or sloped with a clear path 15 feet wide and ready for top dressing or sod, with no additional dirt added or removed.
- ☐ Make sure all stakes for member-owned facilities (listed above) have good stakes/ markings or are exposed.
- ☐ Notify GLE when all the above have been completed.

CONT'D. ELECTRICAL SERVICE APPLICATION

WO Number: _____

SITE DRAWING AND MEMBER RESPONSIBILITIES

1. Sketch property/building site.
2. Indicate the desired location for your meter.
 - ▶ Try to place it on the side nearest the GLE electrical pole. Be aware that GLE may require that the meter be placed in an alternate location.
3. If there is no building on the property, please stake the 4 corners of the proposed building.
4. Check off any of the following underground facilities you may have and **clearly mark or flag them on your site**.
 - ☐ Routes of buried water and propane gas lines
 - ☐ Buried electric lines to personal buildings
 - ☐ Septic tanks and drain fields
 - ☐ Survey markers and satellite/antenna wires
 - ☐ Well location

- ▶ For underground service, GLE requires a 15 foot wide path route that is free from dirt piles, debris, and construction material.
- ▶ The rough grade of the site must be within 6-inches of the finish grade.
- ▶ Member is responsible for final site restoration.

By signing this document, I agree and understand this list of responsibilities. *Failure to complete responsibilities may result in delay.*

Applicant's Signature: _____ **Date:** _____

GLE will not be liable for damages resulting from applicant's failure to mark out locations or from incorrect marking.
